

Colour of my skin – while viewing (Celine)

 Watch the clip and match the sentences with the pictures.

My childhood was quite normal.
 I played with kids, read books and
 listened to music.

There was a song on the playground
 and kids pulled the fox eye.
 I felt really uncomfortable.

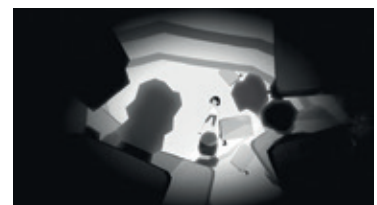

Kids threw empty crisp packets and chip
 boxes. They tried to throw a rock at our
 window and tried to egg our house.

I never went out and did all the things
 my classmates would do.

I contacted the police and listed
 all the things they have done.
 They dropped the case.

I decided to tell them to shut up.
 Everything was a whole mess.
 Lots of people were standing up for me.

We were just talking about
 how crazy this world is and
 how messed up racism is.
