Quiz & video

1. Right or wrong?

Prepare some right or wrong questions for your classmates.
Use information from worksheet 1–4.

2. Prepare a quiz.

Prepare some quiz questions for your class mates. Use information from task 1-4.

Example:

The 4 bases of the DNA are called:

gutanin, thymin, adennin
and Cytosyne

guanine, thymine, adenine
and cytosine

sugar, phosphor, genetic
material and cell

paternity test

3. Become a star.

Record a short video about one topic of the tasks on
worksheets 1–4.

Become an investigator,
a burglar or a lab assistant
– you decide.

Be creative 😊
